

A portrait of Rob Mutsaers, a man with curly reddish-brown hair and blue eyes, wearing a light blue button-down shirt. The portrait is partially framed by a large black triangle on the left and a white triangle on the right. In the top-left corner of the black triangle is a small yellow graphic of vertical lines of varying heights. In the bottom-right corner of the white triangle is a small yellow grid pattern.

Uw nieuwe Visma.net licentie samenstelling

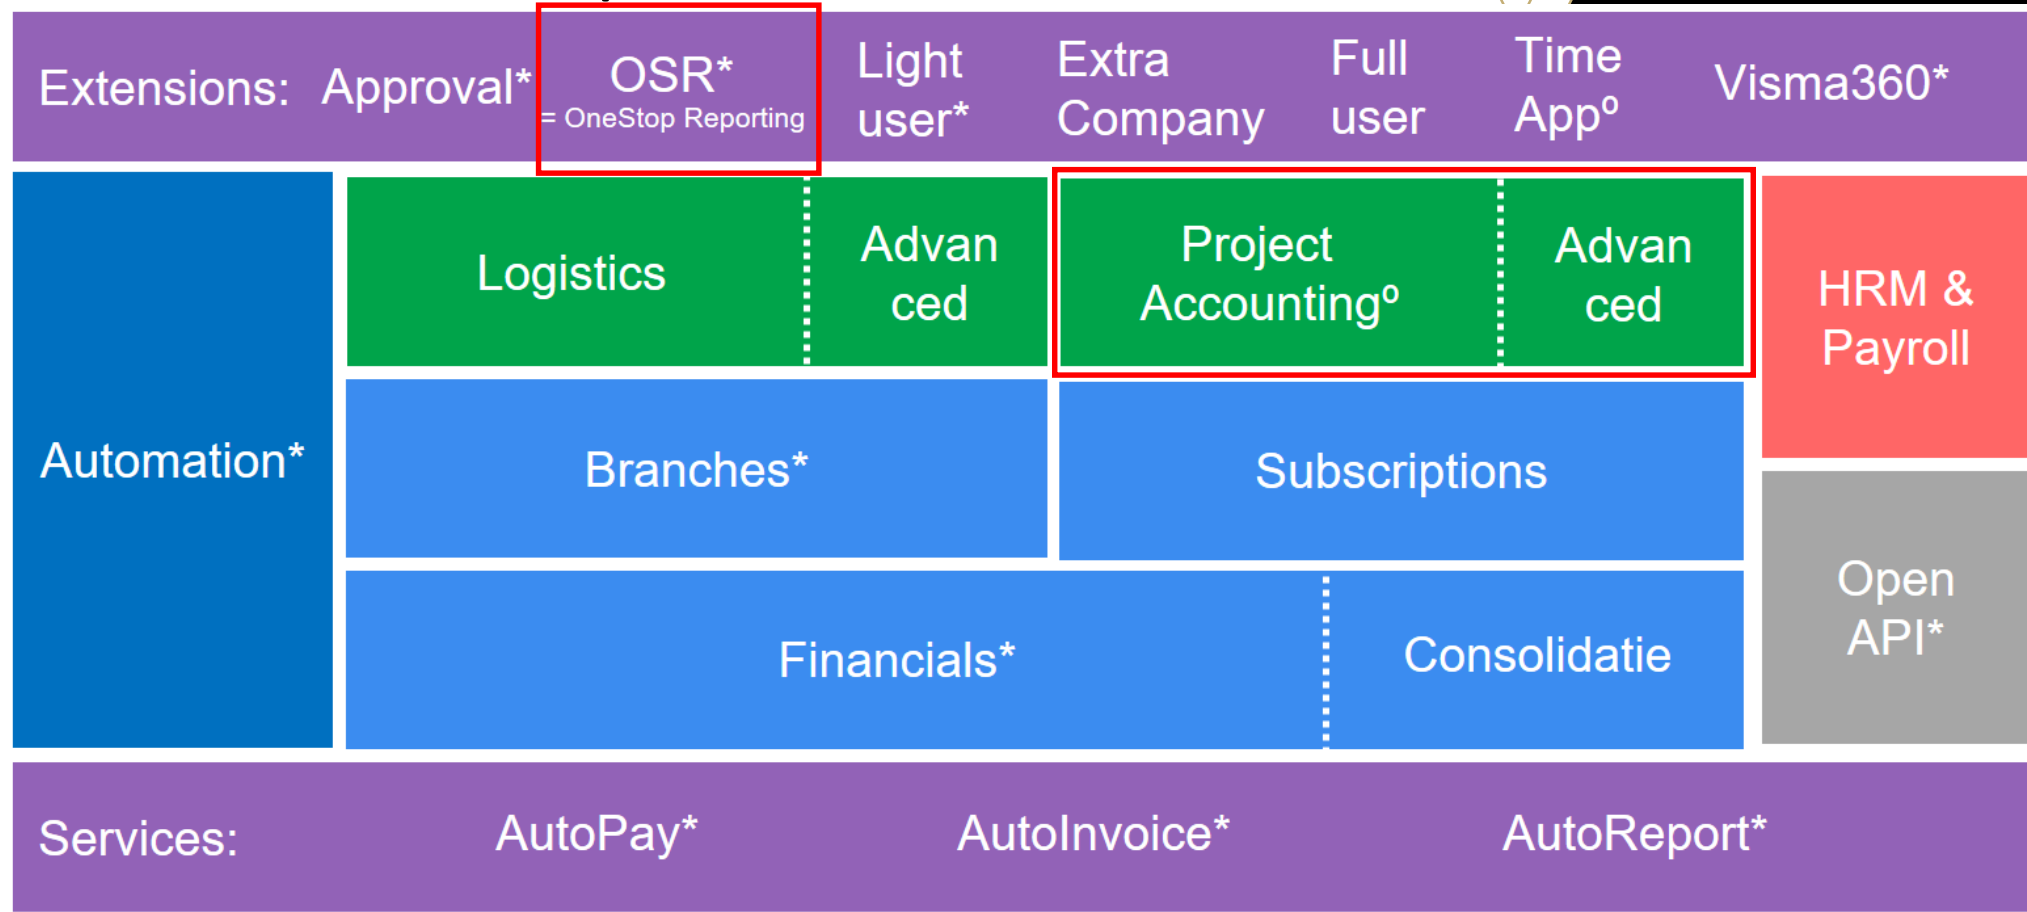

- Rob Mutsaers, Account Manager

Agenda

- Wijzigingen Visma.net licentie
- Eco Systeem - systeemintegraties

Visma.net ERP platform (* = basis bundel)

Wat is gewijzigd:

1. Project Accounting Basis - Advanced
2. OneStop Reporting i.p.v. Insight (sept '21)

OneStop Reporting (API)

The screenshot displays the OneStop Reporting (API) interface, which is integrated with Microsoft Excel. The main window shows a report titled "Winst- en verlies (per maand)" (Income Statement (per month)) for the company "VN - Your Advice B.V.". The report is generated using the "Report Designer" tool, which is visible on the left side of the Excel window. The "Report Designer" pane shows a tree view of the report structure, including "General Ledger Transactions", "Accounts", "Branch", "Companies for group reporting", "Branch Name", "More Fields", "Currency", "Goedkeurder", "Inventory Number", "Ledger", "Period", "Project", "Project Task", "Batch Number", and "Module". The "Accounts" section is expanded, showing a list of accounts including "Accounts Receivable", "Accounts Payable", "Sales", "Purchase", "Inventory", "Project Accounting", "TimeCard", "System", "Functies", "Expressies", "KPI's", "Boor-aan definities", and "Rapportparameters".

The Excel spreadsheet shows the report data, including a table with columns for "Quarter", "Year", "Variance", and "Total". The table contains data for "Revenues", "Cost of materials", "Gross Profit", "Personnel costs", "Other operating expenses", "Financial income and expenses", and "Net Profit". The "Net Profit" is shown as 0.0 %.

The "Layout editor" is also visible, showing a grid of cells and a text box that says "Start door velden te slepen vanuit de ontwerpfunctie in Excel." (Start by dragging fields from the design function in Excel.).

The status bar at the bottom indicates the report is generated by "Aangedreven door OneStop Reporting v5.241013".

Modules en prijzen

Visma.net licentie	Omschrijving	Prijs per maand
